

29 April 1955

Dear Burt:

The attached listing represents what is needed from you under our present contract but at a future time when deliveries would not interfere with our existing schedule. For additional information, in the event that the attached listing is not clear, or is not complete, contact the component of our group interested in this procurement.

There is a necessity for obligation of funds for these items in the near future. Will you, therefore, give me an estimate of the approximate cost and fee for these items as soon as convenient. Your definitive proposal could be submitted at a later date but the tentative cost estimate is needed soon to initiate action for obligation purposes.

Thank you,

Geo.
